

# Composite Frac Plugs

In this time of reductions, budget cuts and uncertainty, one thing is certain — **There's no need to pay for something you don't need.**

**When a standard frac plug can meet the needs of 90% of wells, why spend resources customizing one?**

**Let us do what we do best.**

Our **HC 6.0, HC 5.5, HC 5.0 and HC 4.5 Frac Plugs** offer a standard reliable design compatible in 90% of wells.

We are well-equipped to supply standard high-performance frac plugs at a low cost. We are the leader in oilfield composites and a supplier of more than 2 million composite frac plugs to leading oil and gas manufacturers.

## Low Cost/High Performance

- HC 6.0 rated 8k 250
- HC 5.5 rated 10k 150/8k 200
- HC 5.0 rated 10k 250
- HC 4.5 rated 10k 250
- Innovative proven materials
- Standard low-cost reliable design
- Patented bottom slip - patent number 9,157,288
- Customization available on bottom sub
- Large inventory with quick shipping
- Immediate availability

## Take advantage of our 50+ years of experience

- Design engineering, quality and qualification testing managed by GP&C engineering
- Quick ship and stocking programs available
- Robust inventory management system

**Learn how our HC 6.0, HC 5.5, HC 5.0 and HC 4.5 Frac Plugs can help you win.** Ask for a presentation and begin working on a better way to WIN in today's market.
